

## Safari Logistics

### What is Safari Logistics

Safari Logistics is an African Bush Camps initiative to promote general travel around Zimbabwe through cost effective air access to some of the country’s top safari and wildlife areas, which include Victoria Falls, Hwange, Lake Kariba in Matusadona and Mana Pools. We believe that marketing Zimbabwe as a destination will bring business for all Zimbabwe based service and accommodation providers whilst creating a workable solution for travelers and suppliers of tourism into the country.

### How it works

Due to low numbers in travel to Zimbabwe over the last few years, guests looking to fly between local destinations, such as Victoria Falls to Mana Pools, would have to book and pay for a private air charter. This is a very expensive way to travel particularly if you are travelling as a couple. With Safari Logistics, you can now simply book and pay for a seat on our guaranteed schedules that run three times a week departing from Victoria Falls at 0800hrs (Tuesdays, Thursdays and Sundays). Choose the flight sector you need and plan your safari so that you can take advantage of this cost effective way to fly around Zimbabwe.

**Luggage and Weight Restrictions** The type of aircraft used on this schedule is usually a Cessna .206 that can carry up to 4 passengers. For your safety, luggage is therefore strictly restricted to a maximum of 20 kilograms or 40 pounds per person in a soft duffel bag whose shape you can manipulate. The pilot reserves the right to include extra passengers or deny passengers and / or luggage on the flight if he believes that safety could be compromised due to weight. Passengers over 100 kilograms or 220 pounds may have to purchase an extra seat – Please inform us prior to travel if this is the case. Should the number of passengers warrant, a bigger aircraft may be sourced for the route, however weight restrictions still apply.
